Cautionary Statement Regarding Forward-Looking Statements

This presentation contains certain forward-looking statements within the meaning of the federal securities laws with respect to the proposed business activities of Quopi Ltd. and the platform which it is developing, Quopi.ai. Forward-looking statements may be identified by the use of the words such as “estimate,” “plan,” “project,” “forecast,” “intend,” “expect,” “anticipate,” “believe,” “seek,” “strategy,” “future,” “opportunity,” “may,” “target,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” or similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, but are not limited to, statements as to the expected timing, completion and effects of a proposed business venture, are based on various assumptions, whether or not identified in this presentation, and on the current expectations of Quopi Ltds. management, are not predictions of actual performance, and are subject to risks and uncertainties. These forward-looking statements are subject to a number of risks and uncertainties, including but not limited to: the risk that a proposed business development may not be completed in a timely manner or at all; the failure to satisfy the conditions to the consummation of a proposed business development; the occurrence of any event, change or other circumstance that could give rise to the termination of a proposed development; the amount of redemption requests made by our third party partner stockholders; the effect of the announcement or pendency of a proposed business development on Quopi’s business; risks that a proposed business development disrupts current plans and operations of Quopi; potential difficulties in retaining Quopi customers and employees; Quopi’s estimates of its financial performance; changes in general economic or political conditions; changes in the markets in which the Quopi operates; slow downs in stocks trading or shifting demand for stock trading product; the impact of natural disasters or health epidemics, including the arguably ongoing COVID-19 pandemic; legislative or regulatory changes; the evolving digital asset market, including the regulation thereof; competition; risks related to data security and privacy; changes to accounting principles and guidelines; potential litigation relating to the proposed business developments; the ability to maintain the deployment of Quopi’s trading bots on the NYSE and NASDAQ Capital Market; the ability to implement business plans, and other expectations after the completion of a proposed business development; and unexpected costs or expenses.

The foregoing list of factors is not exhaustive. You should carefully consider the foregoing factors and the other risks and uncertainties possible in such market investment ventures. If any of these risks materialize or our assumptions prove incorrect, actual events and results could differ materially from those contained in the forward-looking statements. There may be additional risks that Quopi Ltd. presently does not know or that Quopi Ltd. currently believes are immaterial that could also cause actual events and results to differ. In addition, forward-looking statements reflect Quopi’s expectations, plans or forecasts of future events and views as of the date of this presentation. Quopi Ltd. anticipates that subsequent events and developments will cause Quopi’s assessments to change. While eToro and FinTech V may elect to update these forward-looking statements at some point in the future, Quopi Ltd. specifically disclaims any obligation to do so, unless required by applicable law.

Any financial information or projections in this presentation are forward-looking statements that are based on assumptions that are inherently subject to significant uncertainties and contingencies, many of which are beyond Quopi’s control. The inclusion of financial information or projections in this communication should not be regarded as an indication that Quopi Ltd., or their respective representatives and advisors, considered or consider the information or projections to be a reliable prediction of future events.

No Offer or Solicitation

This presentation is not a proxy statement or solicitation or a proxy, consent or authorization with respect to any business proposition and shall not constitute an offer to sell or invest, or a solicitation of an offer to buy or exchange, stocks using the services of Quopi Ltd. or www.quopi.ai, nor shall there be any sale of securities as Quopi Ltd. is a privately held company lawfully registered under the common commerce law of United Kingdom, company registration identifier 14590259.

Quopi

Our vision

To automate the process of successful trading in a sustainable way.

Our mission

Providing people with effortless access to opportunities everpresent in the financial markets without a barrier of entry.

Quopi

What is Quopi AI

Quopi AI is the pioneering trading bot developed by Quopi Ltd., a UK-based financial software company. It represents a groundbreaking fusion of a proprietary GPT (Generative Pre-trained Transformer) model and expert trader guidance.

Through extensive research and development, we have harnessed the power of advanced artificial intelligence to create a cutting-edge trading solution. Quopi AI is now available on our platform, offering users unparalleled access to this innovative trading tool.

Quopi AI Trader is currently only accessible through the Quopi web application.

Quopi

Why choose Quopi AI

1

100% Automated

By staking the bot, users do not have to manually place trades, as our AI Trader autonomously executes trades on their behalf, and our expert team manages it.

2

Strong Past Results

Quopi AI Trader has delivered returns ranging from 1% to 4% of daily profits, and more, on a constant basis for since the beginning of 2023.

3

Daily Reporting

Users can view a full history of trading activities, both losses and wins, that the bot makes. Daily reports are released on every trading day.

Quopi

Current State

06.16.2023.

Quopi AI started as a proof of concept, and at this point has grown to a promising trading tool accessible to any interested user, with or without prior trading background.

At the current point we are actively working on streamlining the UX of the site and building a mass market appropriate consumer app in terms of both marketing communication and user interface quality.

At the same time, we are building a community around our current offering that would allow us to more effectively expand in the future - this means new trading tools and bots, customizeability, and a native financial ecosystem in to ensure sustainability.

Quopi

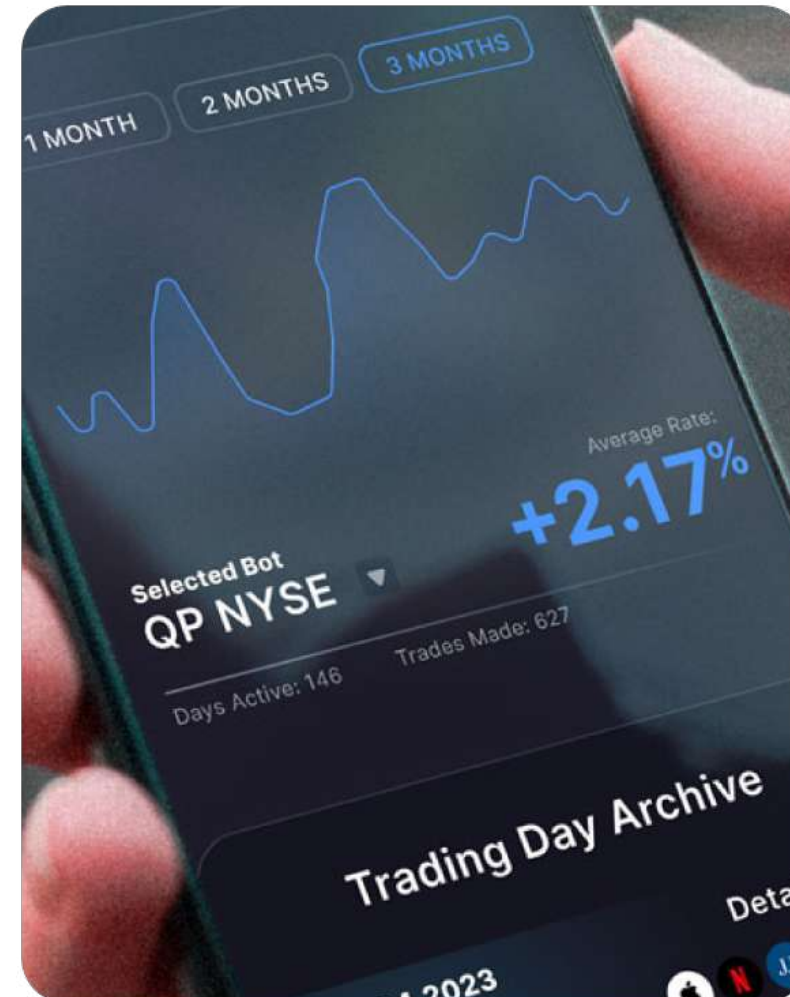

Development Goals

The main developments the Quopi team is currently working towards. More precise dates and roadmap TBA summer 2023.

Quopi AI App

A iOS and Android app is in development that will simplify and streamline the process of investing and monitoring our bot even more for users. First launch is planned by the end of Q3, 2023

Offer Expansion

In addition to polishing Quopi AI Stock Trader, we are working on the release of multiple other trading bots, such as a 24/7 Crypto Trading bot, and an advanced trading bot that utilizes short positions as well. More info TBA.

Native Ecosystem

Our longterm goal is complete platform tokenization. This will help eliminate the complexities of multiple balances, reduce fees for users, and increase transaction efficiency, and more. More info TBA.

Quopi

Simplified complexity

As we continue to grow and develop, the Quopi team will always work with the goal of empowering users with a hassle-free experience that opens the doors to the world of automated trading effortlessly.

This is why users can register and start staking the bot in less than 5 minutes, minimal staking amount is only 10\$, and withdrawals are instant and completely free of charges. The only fee we take is the 5% commission on the successful trades made by our trading bot.
